## Summary

I have a passion for programming and technology, and I am eager to share my knowledge with you. I have 1+ years of experience in Python, Django, MySQL, REST APIs and have built several projects using these technologies. I am self-motivated and I possess good communication skills

## Projects

- A Full Featured Blog web app Using Python, Django, Bootstrap with full, functionalities including CRUD posts, profile picture, pagination, admin panel.
- TODO List App using Django, REST APIs, HTML/CSS.
- Twitter Bot which Retweets and likes the tweets on the feed in real time.
- Python GUI Projects - YT video downloader, Digital Clock, BMI Calculator, Guess the number and many more.
- Built a Web-Scraper which scrapes details of Top 250 movies of IMDB like title, views, rating, duration, year, duration, genre, director name and stores the result in CSV file. Link: https://github.com/harshhes/IMDB-scrapper
